Our Service

ServiceTrac CRM is a unique blend of tools and features that aim to elevate your business efficiency. Designed to integrate sales and service, our platform makes managing leads, tracking customer interactions, sending alerts for warranties, scheduling maintenance, and controlling expenses seamless. The standout feature, our EzRep application, provides real-time tracking of employees' locations and calculates the total distance travelled, ensuring hassle-free reimbursements. We're not just about solving your existing problems, but also anticipating potential ones with innovative features. With ServiceTrac, you're opting for a trusted, continuously improving solution that aids in better operations, superior customer service, and informed business decisions.

ServiceTrac CRM

ServiceTrac CRM is a comprehensive tool aimed at streamlining your customer relationship management. With an integrated dashboard, you can conveniently oversee sales and services data. Our system simplifies lead and customer tracking, ensuring no business opportunity slips through the cracks. The robust expense management feature allows for easy logging, tracking, and approval of expenses, promoting transparency and accountability.

EzRep

EzRep is a pioneering employee location tracking solution, providing real-time location data of your workforce. It automates distance calculation for straightforward and fair employee reimbursements. Our transparent reporting system gives a clear view of your team's activities, reinforcing accountability.

Unleash the Power of Integration - Transform, Simplify, and Accelerate Your Business Growth with ServiceTrac CRM and EzRep.

What Are We Solving?

One Platform for All Your Sales, Service, and Location Tracking Needs

ServiceTrac CRM & EzRep eliminate the chaos of juggling multiple applications. These solutions integrate sales, services, and location tracking into a single platform, thereby enhancing efficiency, promoting transparency, and making expense reimbursement easier than ever before.

Why ServiceTrac?

Streamlining Business with Intelligent Solutions

ServiceTrac offers innovative, user-friendly CRM and location tracking solutions, tailored to streamline your business processes. Our software enhances lead management, expense tracking, and employee monitoring, supported by powerful analytics for informed decisions. We go beyond providing tools, becoming a committed partner for your success. We value transparency, innovation, and customer-centricity, aiming to exceed expectations in both product and service. With comprehensive support and training, ServiceTrac is your choice for efficient business growth.
